**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 34-56 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Regarding claim 34, the prior art of record does not teach, either individually or in combination, first identifying for each sourced color point, a corresponding one of a plurality of hypothetical triangular regions as the region inside of which, or on whose boundaries the sourced color point lies, where said hypothetical triangular regions populate the displayable color space polygon and each of the hypothetical regions has a first vertex at a predefined and common interior point inside the polygon and each hypothetical region respectively has two spaced apart points on the boundary of the polygon as respective second and third vertices of the triangular region; and in response to said first identifying, second identifying a corresponding one of a prespecified plurality of conversion matrices that respectively correspond to the plurality of hypothetical regions, where the identified conversion matrix corresponds to the first identified hypothetical triangular region.
4. Claims 35-41 are dependent on claim 34 and therefore the examiner gives the same reasons as above.
5. Regarding claims 42-56, please refer to the office action mailed on 12/24/2008 for reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
